

YOUR GATEWAY TO THE GLOBAL CANNABIS AND HEMP TRADE.
CMTREX.

CMTREX. GROWING WITH THE INDUSTRY.

CMTREX will be offering an unrivaled range of trading products and services tailored to the specific needs of the cannabis market. Co-founded by Saul Singer, an experienced executive in the international physical commodities market and iCAN: israel-cannabis.com, a leader in accelerating and commercializing products for the global cannabis market, CMTREX is strategically positioned to facilitate the emergence of a transparent and efficient trading ecosystem for the global legal cannabis and hemp markets.

MOVING INVENTORY ON CMTREX

Achieving the best possible prices in today's fast-paced cannabis and hemp markets requires international reach and data transparency to execute efficient trading transactions. CMTREX will give you access to the best buying and selling opportunities around the clock.

REQUISITE TRADING SOLUTIONS

With the explosive growth of the global legal cannabis and hemp markets, there is a clear need for requisite trading platforms and services to facilitate efficient and transparent trading between wholesale buyers and sellers. Despite a number of early attempts, currently, there is no player within the competitive landscape that has yet provided a robust solution with traction. Until now.

A PARADIGM SHIFT

Cannabis is generally traded via one-to-one interactions between buyers and sellers, largely due to the infancy of the emerging global legal market, considerable market fragmentation and regulatory limitations. The CMTREX Platform will provide suppliers with an omni-channel platform whereby their inventory will be directly marketed to a wide range of targeted and vetted buyers. This in turn will maximize the value of the transaction for sellers and enhance purchasing efficiency and price transparency for buyers.

GROWING WITH THE MARKET

CMTREX will be progressively rolling out a suite of trading services over the next 24 months tailored to the needs of the global cannabis and hemp markets. CMTREX will be launching its secure and accredited B2B Digital Marketplace as well as its Cannabis Tender Services at the upcoming Cannatech Global Summit in Sydney October 28-30. This will be followed by the roll-out of bespoke brokerage services and fully-integrated exchange trading services.

WHY US

CMTREX has a proven record in developing, implementing and growing technology-driven trading platforms in markets with similar dynamics to the legal cannabis market. CMTREX's IT-driven trading platform and iCAN's knowledge and expertise throughout the global cannabis industry is a synergistic partnership that will facilitate the delivery of a much-needed wholesale trading solution that will benefit stakeholders throughout the cannabis pipeline.

TEAM

Saul Singer, Co-Founder & CEO

Proven entrepreneurial experience in managing businesses from start-up to monetization. Strong background in international financial advisory and consulting firms. Co-founded Fusion Alternatives in 2006, which grew into a leading independent inventory trading ecosystem in the global diamond industry.

Saul Kaye, Co-Founder & Board Member

Saul's reputation throughout the global cannabis industry speaks for itself. Saul is Chairman and CEO of iCAN:israel-cannabis.com and a successful entrepreneur in his own right.

Gamliel Peretz, CTO

Gamliel has led major international IT solution projects for top-tiered clients. Gamliel also worked with Saul developing the online trading platform solutions for Fusion Alternatives.
